

## Presenting the Code of Professionalism

### Faculty of Education UDD

Below are presented seven documents that explain each one of the principals of the Code of Professionalism of the Faculty of Education (FE) UDD. Each document counts initially with a brief theoretical framework that aims to clarify the understanding of said principal and, afterwards with a breakdown of the principal in terms of concrete performances and practices. It is necessary to remember, as it was pointed out in the introduction, that the Code of Professionalism has in its horizon the vision and mission of the FE. For that reason it is relevant that the reading of each document is accompanied, initially, by the reading of the introduction, inasmuch as the framework and hallmarks that guide the understanding of the principals are established in it.

The documents presented below are stored in the “Observatorio de Buenas Prácticas” of the Faculty of Education UDD (<https://buenaspracticaspedagogicas.udd.cl>). On that link you will be able to find and download the updated versions of each document.

At the end of each document you will find the suggested citation and the date of the latest update.
